# The Challenge

**“Weymouth has experienced many leadership changes since the untimely passing of Superintendent Livingstone in 2011: superintendents, assistant superintendents, special education administrators, and business managers.**

**In the 2017-2018 school year, there are at least 8 interim positions at the district and building level, not all of which are shown on the organizational chart. This writer’s experience in several school districts is that school and central office culture, trust, and efficiency are all seriously hampered by lack of longevity (5+years) in the leadership positions.”**

**(Bent Report, December 2017)**

# Educational Leadership

“School leadership is second only to teacher quality.”

“School leadership is becoming increasingly more important.”

“School leaders are skilled at making their teachers better teachers.”

“More than half of a schools impact on student gains can be attributed to both principal [25%] and teacher effectiveness[33%]”

(“Why School Leadership Matters”, Hechinger Report, March 3, 2019)
