Chapman School Building Update

Ted Langill, Chief of Staff at the Mayor's office came to the table and presented a **School Department budget update**,

The Mayor filed his FY 20 budget measure to Town Council earlier today. The amount allocated to the school department budget will be \$73,619,894, which represents the FY 19 budgeted amount of \$70,815,271 plus a level service increase of \$1,679,515, plus an increase of \$1,041,204 to cover compliance needs, along with \$83,904 for additional needs.

These numbers do not include money for capital measures.

The school budget is going up 4% while town has a 3.4 % increase. More details will be available after the budget is presented to Town Council on Tuesday.

**Letter from Massachusetts School Building Authority:**

The previous estimate of the amount of money for which the town would be responsible was \$99,222,715. However, the MSBA voted to increase their contribution, so now the town's portion will decrease to \$95,956,564

An examination of 42 recent similar projects through the MSBA revealed that the average cost of a school has been \$524 per square foot whereas the new Chapman is projected to cost \$508 per square foot.

Including projected interest on an estimated 25 year bond, this will save the town \$4.7 million.

All questions asked by the committee were addressed.
