

November 2014

Dear Pingree Families,

As we continue our efforts to expand Family Engagement opportunities across the district, the Family Engagement Action Team will meet throughout the year to evaluate current practices and to discuss new areas of relevance in order to fortify the home/school relationship. This team is comprised of parents, teachers and school administrators of students from all school levels. As we continue to work to match school offerings with the needs and interests of families, it will be helpful to utilize feedback from families.

Please consider accessing the “Family Feedback” link below and providing us with anonymous information that will help to steer our future work.
